

## Healthcare Overview

When it comes to healthcare IT, no one can offer the unique kind of support, tech expertise, experience and industry specific “bed side manner” that Derive Technologies provides. We’ve built a richly diverse IT business solutions practice to meet the unique requirements of the Healthcare industry.

Derive has been supporting healthcare companies’ complex technology needs with innovative solutions for two decades, serving some of the world’s leading medical institutions. We provide comprehensive support for teaching and research facilities, long term care and home health services, satellite clinics and small practices. Our subject-matter experts have extensive experience working with nursing, physician, pharmacy and clinical engineering leadership. Derive combines this expertise with broad capabilities and understanding of the overall enterprise technology infrastructure.

Our goal is to bring innovation to challenges surrounding patient care, regulatory compliance, information sharing, teaching and learning, and medical/pharmaceutical R&D. With a holistic approach, we provide point of care solutions that empower health care institutions to administer personalized care that’s timely and organized.

Our comprehensive suite of healthcare solutions provides:
